

How to locate a Study and Session in Formed

(For makeup work or home study)

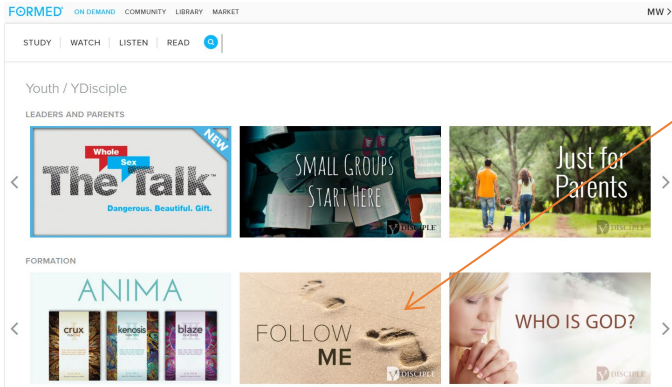

1. Log in to YOUR account at www.formed.org (See how to create a FORMED acct doc, if needed.)
2. Click on STUDY (these pictures are taken from a desktop computer – it looks different on a mobile device)

3. Select YOUTH/YDISCIPLE

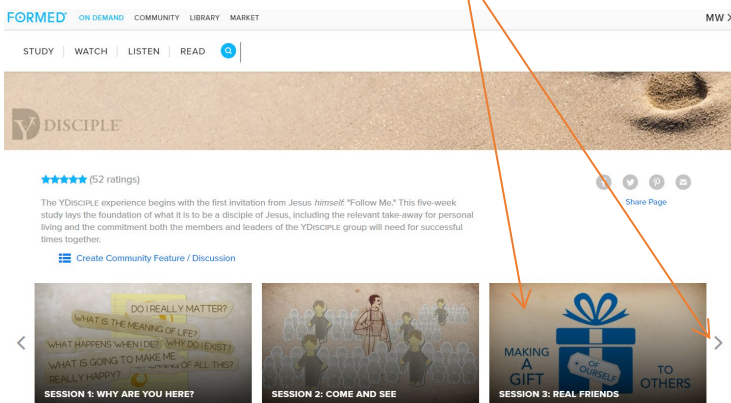

4. Scroll until you find your study (in this case I am using "Follow Me"). Sometimes you need to scroll quite a bit to find the correct study. But, it's there... just keep looking.

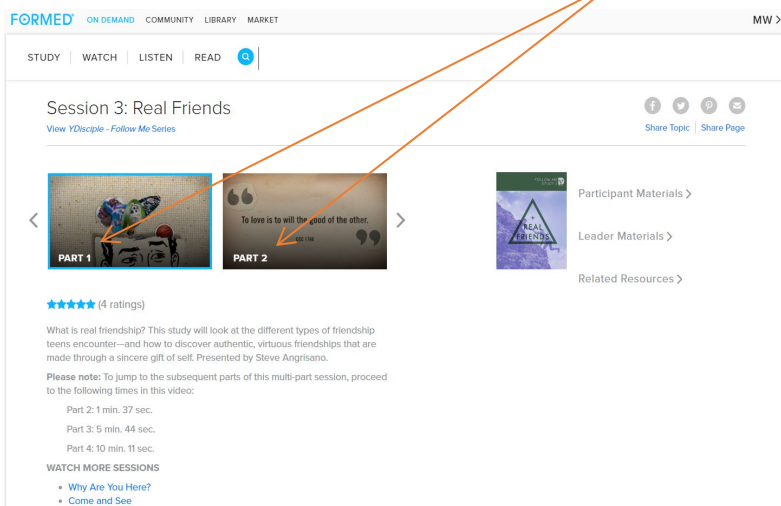

****Sometimes you may need to scroll horizontally, too, in order to find your study.**

5. Click on your study to open it up, then select the session you need to make up (don't forget, you may need to scroll horizontally):

6. Each session has at least two parts to watch:

7. After you watch the videos, refer to the separate handout with all of the makeup questions. You will need to write answers to these questions in your journal and turn them in to your mentor, at the beginning of your next session, to get an excused absence for the missed session.
